Note

I had a meeting with Alexandra (the affected student). Alexandra stated the following during the meeting:

The bullying began in early December during recess and continued both in and out of the classroom. Alexandra described being physically attacked on multiple occasions. Specific incidents included:
Being shoved into lockers on two occasions.
Hair-pulling during a group activity in the classroom.
Multiple instances of being punched in the arm and shoulder during lunch breaks.
Alexandra expressed fear of retaliation and had been reluctant to report the incidents sooner.

I have opened up an investigation and will follow through until marked as resolved.
