

Sending Personal Notifications

Direct, Targeted & Confidential Communication

Written by Sanket Haval | Last published at: February 17, 2026

Personal Notifications allow you to communicate directly with:

- An individual Parent/Guardian
- A Staff Member
- A Student (if enabled)
- A Specific Group

Unlike News or Notifications, Personal Notifications are targeted and private, giving you full control and visibility.

With Personal Notifications, you can:

- See exactly who has read the message ([click here](#))
 - Send to an individual or group
 - Enable replies for two-way communication
 - Send automatic unread email reminders
 - Add users to an existing PN thread ([click here](#))
 - Mark as Private (visible only to you and the Principal)
 - Include students (if registered on the app)
-

How to Create a Personal Notification

There are two ways to begin — depending on whether you're messaging an individual or a group.

Option A: Send to an Individual Family

1. Search for the student using the search bar (top right of Dashboard)
2. Click **Send PN** (top right)
3. Choose Primary Contact, Secondary Contact, or Both
4. Choose whether you want to allow the parent to reply
 - You will receive an email notification when the parent responds
 - [Click here to view more on this](#)

You are now on the Personal Notification creation screen.

Note:

“Enable Reply” is only available when sending to an individual family.

Option B: Send to a Group

1. Go to **Personal Notifications**
2. Select **Manage Personal Notifications**
3. Click **Add PN**

You are now on the Personal Notification creation screen.

Creating the Message (Same for Individual or Group)

Once on the creation screen:

1. (Optional) Select a Template
2. Enter the Title
3. Enter the Content
4. (Optional) Add Image, Video, or PDF
 - Contact staffsupport@uniqueschools.ie if you would like to enable Video (Vimeo account required)

Best Practice:

- Always add at least one image (otherwise the school crest displays).
 - Avoid PDFs where possible — they are not mobile-friendly. Copy and paste content into the message for better readability.
-

Scheduling (Optional)

- Set a future Send Date/Time
 - Set an Archive Date (default is 60 days after sending – Still viewable in app for parent under Archived Personal Notifications)
-

Selecting Recipients

- Choose who to Send To (Parent, Staff, Group)
 - Apply filters if needed
 - Select individual users or Select All
 - Click **Add to Notification** to move them to the Final List
-

Settings Explained

- **Send as Push Notification**
 - Sends an app alert (enabled by default)
 - **Send SMS**
 - Sends to non-app users via text message
 - **Unread Email Reminder**
 - Sends an automatic email after 24 hours if unread
 - **Include Student in PN**
 - Sends to the student if they are registered
 - **Mark as Private**
 - Only you and the Principal can view this PN
-

Final Step

- Preview the message
 - Click Submit
-

Support & Training

If assistance is required:

- **Staff Support**
