

Viewing & Managing Responses to Personal Notifications

How to Find, Reply to, and Close a Personal Notification Conversation

Written by Sam Support | Last published at: February 17, 2026

When sending a Personal Notification (PN) to an individual family, you can enable replies. This allows the parent/guardian to respond directly within the app, creating a secure, threaded conversation.

This guide explains how to:

- Find a parent's reply
 - Respond back
 - Close the conversation when finished
-

How You Know a Parent Has Replied

If replies were enabled when the PN was created:

- You will receive an **email notification** when the parent responds.
 - The email will direct you to log in to the Dashboard to view and reply.
-

Step-by-Step: Viewing & Responding to Replies

1. Log In

Go to uniqueschoolapp.ie

2. Go to Personal Notifications

Navigate to:

- **Communications > Personal Notifications > Manage Personal Notifications**
 - By default, you will land on the “**All**” tab.
-

3. Switch to the “Unread” Tab

- Click on the **Unread** tab.
 - This will display all Personal Notifications that contain unread replies.
 - You will also see an unread reply count beside “Personal Notification” on the left side menu

5. Replying to the Parent

Click the **Green Chat Icon** to:

- View the full message thread
- Type your reply
- Add images or PDFs if required

Both you and the parent can attach:

- Images
- PDF documents

This keeps all communication organised in one secure thread.

6. Closing the Conversation

When the matter is resolved:

- Click the **Red Close Icon**

This will:

- Close the conversation
- Prevent further replies from the parent

You can still view the conversation history at any time.

Why Use Personal Notification Replies Instead of Email?

Using PN replies efficiently can replace back-and-forth email communication.

Benefits include:

- All communication saved in one place
- Automatically stored on the **Student Profile**
- Full visibility of read/delivery status
- No searching through email threads
- Supports the school's **Single Point of Engagement**
- Everything remains securely within the school app system.
