

Remove a Student From a Payment

How to remove a student from a payment on your Dashboard

After a payment is created you may need to remove a student from a payment. This could be because they were assigned incorrectly to a fee and keep getting reminders, or that they were added to more than one of the same payments without an option to Opt Out.

A student can only be removed from a payment if they are still marked as unpaid. If they have paid, you may need to do a refund instead.
