

Send Payment Link

How to send a link for a user to pay

Written by Sanket Haval | Last published at: July 19, 2024

The system allows you to send a link to the user to make payment. They will receive an email with a link that will open the payment portal on their browser.

This could be used when:

- the user is having difficulty paying on the School app
- when another member of the family who is not an app user wants to pay for the item
- when a parent/guardian calls the school and wishes to pay over the phone.

If a parent/guardian is having a lot of difficulty with payments, please have them contact our **Parent/Guardian support** inbox:

support@uniqueschools.ie

To send a link for a payment please follow the steps below:

Go to your **Dashboard** and tap on **School Shop** then in the dropdown select **Manage School Items**

Tap on the **eye icon** of the payment you wish to send the link of

Tap on **View Students**

Find the **student** and **tap** on **Send link** icon

Enter **email of the user**

Comment is optional

Hit **Submit**
