

Late Request Forms Outstanding

View & Manage all outstanding Late requests since the start of the academic year

Written by Sanket Haval | Last published at: July 22, 2024

The **Late Request Forms Outstanding** section enables staff to view and manage all pending late requests from the start of the academic year. This feature allows for streamlined attendance management by highlighting any unexplained lates, making it easier for schools to follow up with parents/guardians to submit necessary notes. If you are not seeing the correct information in the Administrator's App, it means you do not have access to it and requires to be added by a full access member. Please contact the School admin or refer to the help guide on

Access and permissions.

Note: The **Late Request Forms Outstanding** section is **only available in the Administrator's App** and is not accessible via the CMS/Web Version Dashboard. However, you can apply the Requested status filter and set a date range within the CMS to view all requested late notes, making it possible to achieve similar functionality.

1. Open your **Administrator's App**

2. Go to the **Main Side Menu**

- From an **Android Device**, tap on the 3 horizontal lines on the top left of the screen
- From an **Apple Device**, tap on the more tab on the bottom right of the screen

3. **Tap on Late Request Forms Outstanding**

4. By Default, it will **show late requests since the start of the year**. You can change date by **tapping on the date filter on the top left**

5. You can either:

- **Call** - This allows you to call the parent/guardian from your device (*note: If your phone is not on private, they will see your phone number*)

- **Personal Notification** - Send a templated Personal Notification with a single tap. See below for more information on this
 - **View** - This allows you to view all requested & submitted notes for the student
-

- Displays the **Total Late Requests Outstanding** for the student since the beginning of the academic year
- One tap to send templated **Personal Notification** to parents, which will include the student name, total requests and custom message.

Manage Personal Notification Templates here

- **View all late requests** for a particular student
- Includes information such as **day of the week** and more, which provides immense insight into any **potential patterns**
