Share Positive Stories & Showcase School Achievements

Written by Sanket Haval | Last published at: February 18, 2026

A News item is used to highlight positive events and achievements within the school community, such as:

- Bake sales
- Charity events
- Sports results
- Awards and achievements
- School trips
- Creative projects

These are “nice to know” PR-style posts designed to promote the school in a positive light.

Keeping **News** and **Notifications** as separate feeds helps parents clearly distinguish between **important, urgent announcements** and **positive, “nice to know” updates**, making communication easier to prioritise and more effective overall.

News items are public posts within the app.

This means:

- They are visible to all registered app users
- They are not private messages

If you do not have the News section on your School App and you would like to have it added, please contact reach out to us directly [via email](#).

Creating a News Item

1. Go to Manage News

- Go to **uniqueschoolapp.ie** and log in
- Under **Communications**, click **News**

- Click **Manage News**
 - Click **Add**
-

2. Enter Title & Message

- Add a **Title** (headline of the post)
 - Enter the **Message content**
-

3. Add to a Category (Optional)

- Click the **Category dropdown**
- Choose where the News item should appear

The notifications feed can be split into sub-categories e.g. Sports, Trips, PTA etc. to display only relevant content in each category.

[Learn more about Categories here](#)

4. Add Images (Highly Recommended)

Adding images significantly increases engagement.

To add images:

- Click **Choose Files**
- Select images from the Gallery and click **OK**

To upload new images:

- Click **Browse Files**
- Select images from your device
- Click **Upload**
- Select the newly uploaded images and click **OK**

If no images are added, the school crest will display by default.

5. Add Video (Optional)

If the **Video is unavailable**, you must complete the **Vimeo integration here first**.

To add video:

- Click **Choose Videos**
- Select images from the **Library** and click **OK**

To upload new images:

- Click **Browse Video**
- Select from your device

- Click **Upload**
- Select the newly added video and click **OK**

[See more on Video here](#)

6. Add a PDF (Optional)

To upload a PDF:

- Click **Upload PDF**
- Select the file from your device

You can upload **up to 2 PDFs** per News item.

7. Schedule or Archive (Optional)

You can control when the News item appears and when it is removed.

To Schedule:

- Click **Schedule Date**
- Select a future date and time

To Archive:

- Click **Unpublish Date**
- Select the date the item should be removed

If no Unpublish Date is selected, the item will automatically unpublish after **60 days**.

8. Post to Social Media (Optional)

You can automatically share the News item to:

- **Facebook** (up to 50 images)
- **X (Twitter)** (280 character limit)
- **School Website**

Contact us directly [via email](#) if you wish to get your social media/website integrated.

For X (Twitter) use:

- **Copy Title**
- **Copy Message**

To quickly populate your posts.

9. Send as SMS (Optional)

Tick **SMS** to notify non-app users.

They will receive:

- The **Title** via text
 - A link to download the app
-

10. Send as Push Notification (Device Alert)

- Tick **Send as Push Notification**
- Select who should receive the alert, e.g. *Parents of 2nd Year*
- Only selected users will receive the alert, but the notification will still be visible to all app users.

If you **untick** this box:

- No one receives an alert
 - The notification still appears in the app feed for everyone to see
-

11. Click Save

Click **Save** to publish the News item to the app & socials if selected.
