

# Add Students for Late Detention

Quickly Assign Detention for Repeat or Unexplained Lates

Written by Sam Support | Last published at: February 19, 2026

---

Before using this feature, please ensure:

- The Detention Manager has been fully set up (Time Slots & Reasons created)
- You have the correct Access & Setup in place

If you have not completed setup yet, [\*\*please follow this guide first.\*\*](#)

---

## Step-by-Step: Add Students to Detention from Lates

### 1. Log In

- Go to [uniqueschoolapp.ie](https://uniqueschoolapp.ie) and log in.
- 

### 2. Go to Lates

Under **Attendance Overview**, click **Lates**.

By default, you will see **all lates for today**, including:

- Late Notes
    - Parent has submitted a note
    - Student may or may not have signed in on the tablet
    - Marked as **Explained Late** if student signs in
  - Late Requests
    - Student signed in without a note
    - Parent has not yet explained the late
    - Marked as **Unexplained Late** if no explanation is received
- 

## Using Filters (Recommended Best Practice)

The filtering system makes this process extremely efficient.

## Example Best Practice:

Most schools review **last week's lates**, filter for **unexplained lates**, and assign detention to students with **2 or more lates**. Our system allows you do this in less than 1 minute.

### Step 1: Set Date Range

- Set **Date Range: Last Week**

### Step 2: Filter by Authorisation Status

Set **Authorisation Status** to:

- **Pending**
- **Unauthorised**

What these mean:

- **Pending** – Student signed in late without a note, and parent has not yet explained
- **Unauthorised** – Parent received alert but did not authorise the late

Example of Unauthorised:

Student was dropped off on time but leaves school grounds and returns late.

---

## Optional Setting – Limit Late Authorisation Time

If you would like to restrict how long parents can explain a late (e.g. same-day only), we can enable this.

Example:

Student signs in late at 9:30am. Parent must authorise before 4:00pm that day.

This prevents parents from explaining lates weeks later.

Contact: [staffsupport@uniqueschools.ie](mailto:staffsupport@uniqueschools.ie) if you would like this enabled.

---

### Step 3: Filter by Number of Lates

- Use the **Late Arrivals  $\geq$**  filter.

For example:

- Enter **2**
  - This will show students with **2 or more lates** within your selected date range
- 

## Adding to Detention

- Review the filtered Late List
- Tick the students you wish to add to Detention
- You can use **Select All** beside the Student Name column
- Click **Add to Detention**

- Select an existing Detention session

OR

- Create a new one

Important:

You cannot create a recurring detention from this screen.

Recurring detentions must be created in the **Detention Manager**, then selected here.

- Click **Submit**

Search student name

## Attendance Overview

## What Happens Next?

If your **Automatic Personal Notification** setting is enabled ([see Access & Setup guide](#)), parents/guardians will automatically receive a notification via the app informing them that their student has been added to Detention for lateness.

Feel free to reach out to us directly [via email](#) or book a free Zoom training session via the button below
