

Medical Form & Picture Permission Email Settings

Manage who should receive email alerts for Medical Forms & Picture Permission updates

Written by Sanket Haval | Last published at: August 08, 2024

Manage and set up which staff members receive emails regarding submissions and updates to medical forms and picture permission statuses. Staff will only be alerted if user selects that the student does have a medical condition or have not given permission for pictures.

Adding a record: *(Go to **Editing a record** steps below if there are records already created)*

1. Go to your **Dashboard**

2. Click on **Medical Form & Picture Permission Email Settings**

3. Click on **Add**

4. **Select** the **Module** to receive emails for

5. **Email** - Enter the email address the staff member uses to login to the **Dashboard & Administrator's App**

▸ It should be the **school email address**, not a personal one

6. **Click here to add more Email Addresses** - You can add multiple users' email addresses if there is **more than one** staff member assigned

7. **Click on Submit**

Repeat steps 3-7 for adding the other Module

Editing a record:

1. Go to your **Dashboard**

2. Click on **Medical Form & Picture Permission Email Settings**

3. Find the **Module** you would like to edit

- Either **Medical Form** or **Picture Permission**
- If both, repeat the steps for the other module

4. **Click on Edit**

5. **Email** - **Edit** or **Add** the email address the staff member uses to login to the **Dashboard & Administrator's App**

▸ It should be the **school email address**, not a personal one

6. Click here to add more Email Addresses - You can add multiple users' email addresses if there is **more than one** staff member assigned

7. Click on Submit
