

Creating Sports

Why This Comes First

Written by Sam Support | Last published at: February 16, 2026

Before you can create teams, fixtures, or training sessions, you must first create a **Sport**. Sports act as the top-level category within Team Manager. Once a Sport is created, you can then add teams under it and begin scheduling fixtures and trainings.

Think of it like this: **Sport** → **Team** → **Fixtures & Trainings** → **Communications & Attendance**

This guide walks you through setting up your first Sport.

Step-by-Step: Creating a Sport

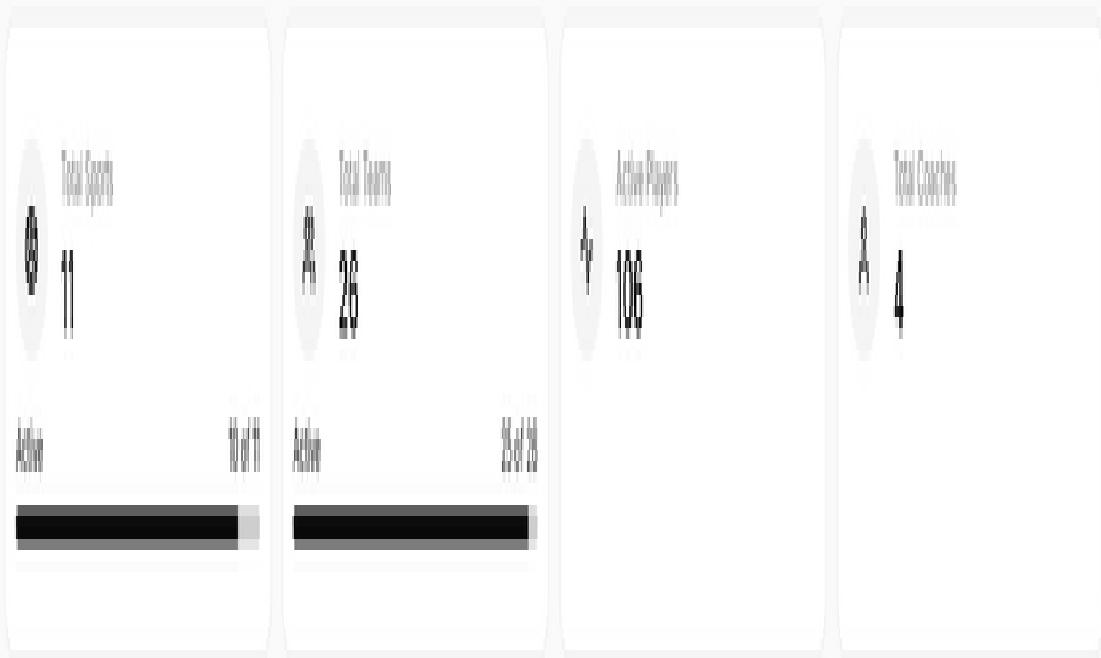

1. Log In

Go to uniqueschoolapp.ie and log in if you're not already signed in.

2. Open Team Manager

From the main dashboard:

1. Click **Team Manager**
2. Then click **Sports** from the left-hand side menu

Search sports...

All

+ Add Sport

Get Sports

Active	Sport	Icon	Starters	Substitutes	Coaches	Teams	Players	Notes	Actions
☐	Gymnastics		0	0	1	0	0	Involves performing routines requiring strength, balance, and flexibility.	

Settings

	Hockey		15	11	☒	0	102	.	  
	Karate		0	0	☒	5	22	Respect Always - How to your instructor L...	  
	Netball		7	5	☐	0	0	.	  
	Rugby		15	0	☒	4	154	.	  
	Soccer		11	0	☐	0	0	Soccer, also known as football in many par...	  
	Tennis		1	1	☒	3	10	.

3. Choose How to Add Your Sport

You now have two options:

Option A: Add Sport (Manual)

Use this if you want to fully customise the sport.

1. Click **Add Sport**
2. Fill in the fields shown

You will be asked to enter details such as:

- Name of Sport
 - Icon
 - Number of starters
 - Number of substitutes
 - Other sport-specific settings
-

Option B: Get Sports (Recommended when available)

This option allows you to import from a list of pre-configured sports templates that we've already created for you.

1. Click **Get Sports**
2. Select the sport(s) you want

These templates automatically include:

- Starters
- Substitutes
- Common sport configurations

This is the **fastest and easiest option**.

4. Assign Coaches to Your Sport

If you import a sport (or after creating one manually), you must assign **Coaches** to it.

To do this:

1. Find the sport in your list
2. Click the **Edit (pencil) icon** on the right-hand side
3. Select the relevant coach(es) from your staff list
4. Save

⚠ This step is important — only assigned coaches will be able to manage teams and activities within that sport.

What Happens Next?

Once your Sport has been created, you're ready to:

- Create your first **Team**
- Add students
- Schedule fixtures
- Add training sessions

The next guide will cover:
