

DSI Sign Out - Time Interval

Manage the time interval for your Digital Sign Out

Written by Sam Support | Last published at: July 24, 2024

Set up and manage the buffer time around a student's Permission to Leave (PTL) note. For example, if a student's PTL note is for 1:30 pm, allow a 10-minute window on either side so the student can sign out even if they don't arrive at the device or office precisely at 1:30 pm.

- 1. Go to your **Dashboard**
- 2. **Click** on **PTL Setting** on the left side menu
- 3. On the dropdown menu, select **DSI Sign Out - Time Interval**
- 4. Enter the **Before Time (in Minutes)** and the **After Time (in Minutes)**
- 5. **Click** on **Submit**

If you're unable to see the PTL Setting tab on your menu, please reach out to us.
