Attendance Form Management

Attendance Form Management removes the manual work involved in managing attendance. However, as we are not in the school, it is important that we have your assistance to ensure roll calls are taken correctly.

When a student is marked absent in the roll call and the parent/guardian did not submit a note in advance, they will receive an Absence Request Form.

This form invites them to submit a reason why their student is absent.

The Absence Request Form gives parents/guardians the option to submit their note and explain why the student is absent. US will manage the note and input it into the attendance system.

The parent also has the option to tap on 'Please Check'.

My Student should be in school. Please check and see why they are marked absent.

Please Check

Please Check

Once the parent/guardian taps 'Please Check' the school will receive an email similar to the one below.

The attendance officer will then be required to check if the student is in class, as the parent advises, or if the student is actually absent.

I received an absent request for my child Cathal McManus (30 May 2022) Please check as my child was not absent and cancel absent request form please.

Student Information

Student Name : Cathal McManus

Year : 2

Class : 2.2

[Full details for this notice are available in the CMS @ \[uniqueschoolapp.ie\]\(https://uniqueschoolapp.ie\)](#)

After checking if the student is or is not in class you can then login to your **Unique Dashboard** and go to the last tab on your menu called 'Absence Request Forms' then ' Matched Data'.

Here you will be able to filter by 'Please Check', which will show only the

students whose parents have selected this option.

Once you filter by 'Please Check' you will have two options:

- Select the name of the student and tap on **'Not in class - confirmed'**
This means the student is not in class. The parent then gets notified to say you have checked and the student is not in the school so they should submit the absent request form.

- Select the name of the student and tap on **In Class - Cancelled**
This means that you have checked, the student is in class and the absence request is cancelled.
