Written by Sam Support | Last published at: February 16, 2026

Training sessions allow you to organise regular practices, manage attendance, and keep parents and students informed — all in one place. You can create one-off sessions or set up **recurring weekly trainings** in just a few clicks.

This guide walks you through how to create your first training session.

Step-by-Step: Creating a Training Session

1. Log In

Go to **uniqueschoolapp.ie** and log in if you're not already signed in.

If you are already logged in, skip to Step 2.2.

2. Open Team Manager

From the main dashboard:

2.1. Click **Team Manager**

2.2. Click **Trainings** from the left-hand side menu

 **Tip:** By default, this will only show *your teams*. Uncheck **Show My Teams** to view all teams.
