

Picture Permission list

How to manage Picture permission list on your Dashboard

Written by Sanket Haval | Last published at: July 15, 2024

Picture permission is updated by the parent on their School app under the 'My student tab'. Staff members have access to view students who have been given/not permitted their main Dashboard and or Administrator app.

To see the list of permissions please follow the steps below:

Go to your **Dashboard** and tap on **Reports** then in the dropdown select **Picture Permission list**

Apply filter

Hit **Search**

If a parent has contacted the school directly to revoke consent we would recommend asking them to make sure that they update their school app to reflect it, however, we understand that in some cases you will need to update it.

To update a Picture Permission status please follow the steps below:

Go to your **Dashboard** and tap on **Reports** then in the dropdown select **Picture Permission list**

Search **name of the student**

Hit **Search**

Select box beside the student's name

Select status you wish to apply (Allow/Deny)

Please note that your name will be stamped as the last person to modify the status.
