

How To: Send a Notification

Notifications go to your App Notifications feed. **Notifications are visible to all App users.**

Open your App CMS panel & click 'Notifications' then 'Manage Notifications' and 'Add'

1 Title (Please restrict to 120 characters for SMS.)

Title/heading of your notification

2 Message

Content of your notification

3 ☒ App Notification (This will be visible in the app.) Auto-selected to ensure your notification is displayed in the school App

4 ☒ Send as Push Notification (Select to send this notification as an alert) Auto-selected to ensure user gets a notification/beep on their device

5 User Type Select who is to receive the notification/beep on their phone; eg parents of 2nd year students. **Note: only these people will get a beep on their device but notification is visible to ALL app users.**

- ☐ Student
