

1. Download & register your School App

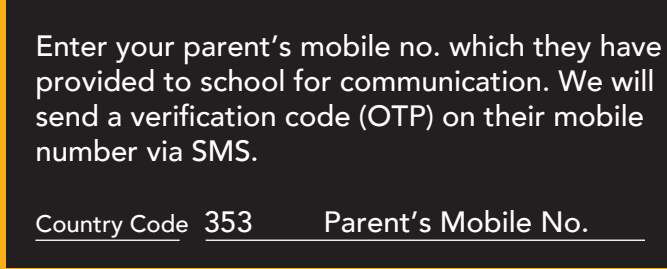

Verification Code - a code will be sent by SMS to your parent's/guardian's mobile phone during registration. You will need this code to complete registration so it is best to have your parent beside you when registering. Unique Schools never request or use a student's personal mobile number.

Verification Email - students need to provide an email address during registration. A verification email will be sent to this address so you must have full access to this email account to access and verify the link in the email to complete registration. You can use your personal email/gmail account. Do not use your **school email** if you do not have full access as you not be able to verify the link and complete registration.

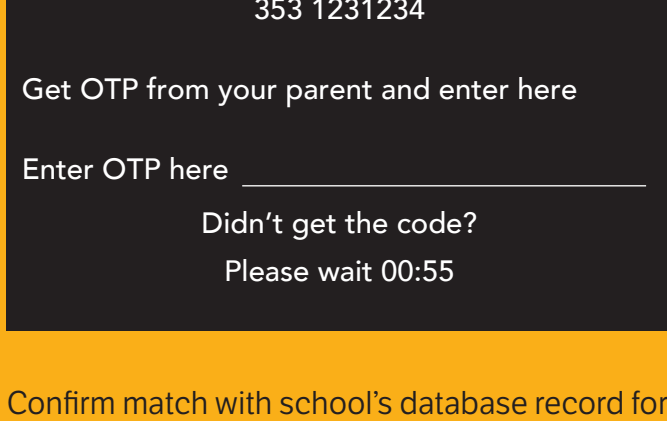

- 1 Go to App Store  or Google Play ; search for your school name; select the correct App and download
- 2 Open App
- 3 Allow Notifications - if you do not do this you will not receive alerts from the school
- 4 REGISTER - do not try to log in with Teams, VSware or Google
- 5 Review Terms & Conditions - accept to continue registration; decline to cancel registration
- 6 Confirm 'I am a Student'

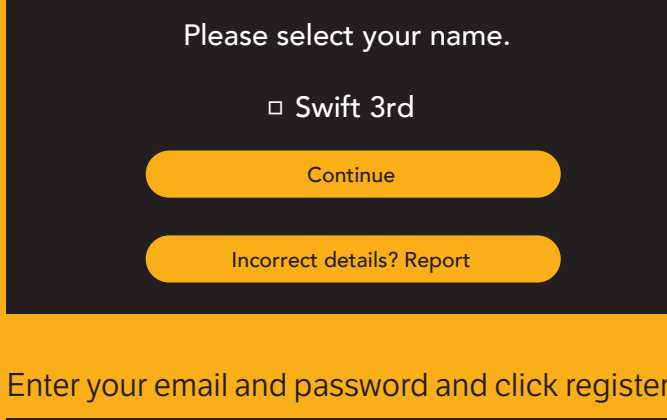

- 7 Enter your parent's/guardian's mobile number (check country code is correct)

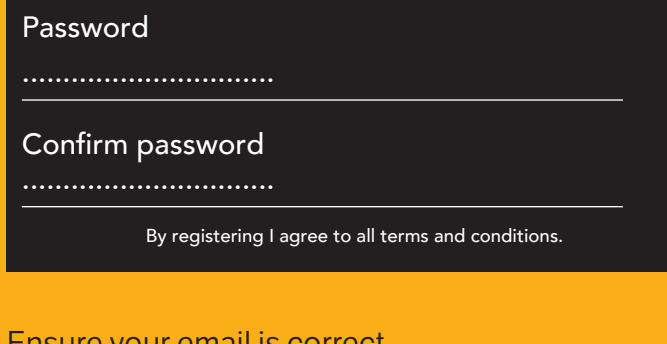

- 8 Enter OTP code that is sent to your parent's/guardian's phone via text

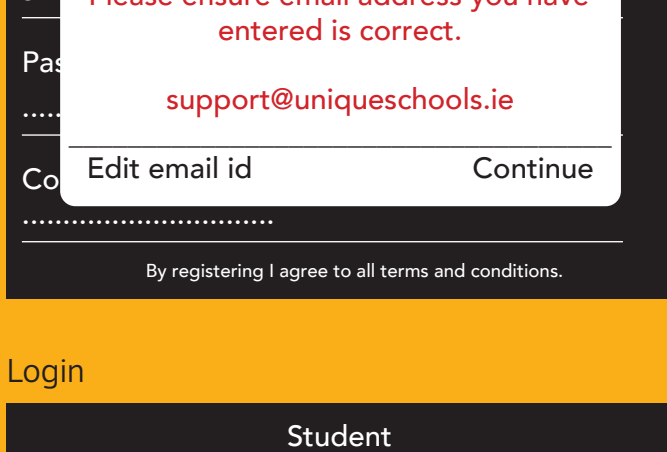

- 9 Confirm match with school's database record for your name

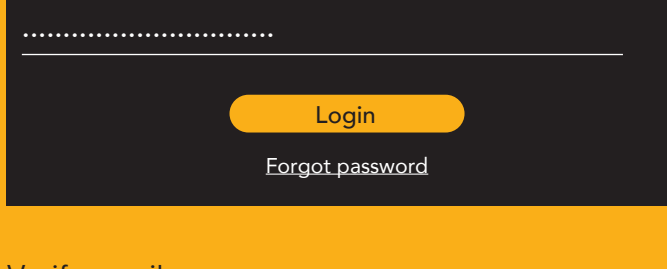

- 10 Enter your email and password and click register

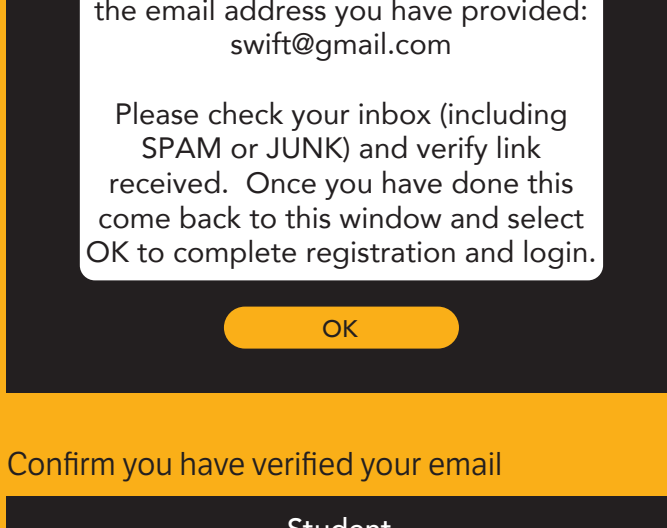

- 11 Ensure your email is correct

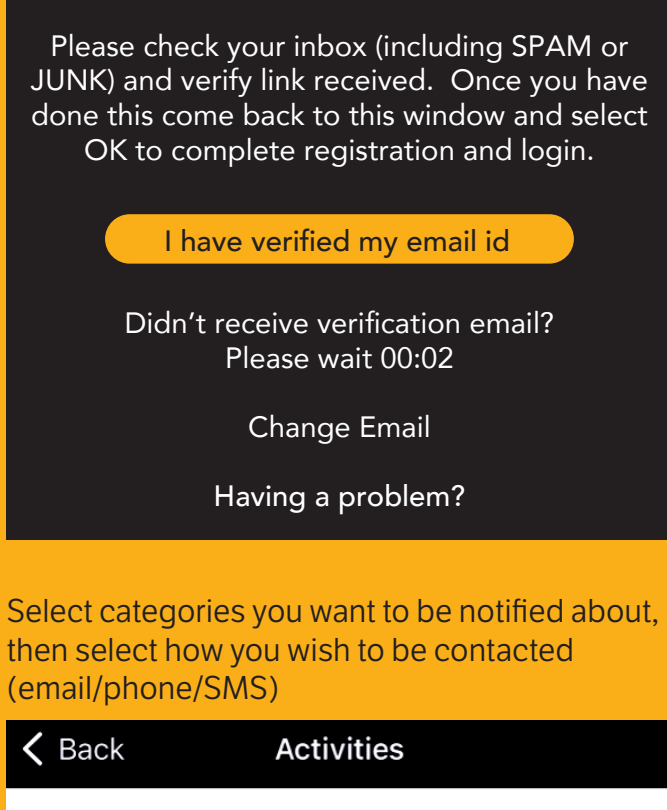

- 12 Login

- 13 Verify email

- 14 Confirm you have verified your email

- 15 Select categories you want to be notified about, then select how you wish to be contacted (email/phone/SMS)

- 16 You are now logged in!
