Manage Gallery items for parents/guardians to view in the school app

Written by Sanket Haval | Last published at: August 08, 2024

---

This section of the Dashboard allows staff members to post images to a public Gallery for everyone registered on the school app to view.

**Gallery items should be added as a News item.**

This gives you the option to alert users. It's not possible to do this via the Gallery section

Only use the **Add** option here, when you do not wish to alert users of a new Gallery post.

## Editing an Existing Gallery item

1. Click **Edit** beside the item you wish to make a change to
  2. Change your **Title** if you wish
  3. Add/Change the **Message**
  4. Add images by clicking **Choose Files**
    - Select the images you wish to add to this Gallery
  5. Remove images by clicking the **X** on the image thumbnail
  6. **Save**
- 

## Adding an Existing Gallery item

1. Click **Add**
  2. Enter the **Title**
  3. Add the **Message**
  4. Add images by clicking **Choose Files**
    - Select the images you wish to add to this Gallery
  5. **Save**
-

If you have Full access to the system you will be able to publish Pending Items by simply selecting the item and tapping on Publish.
