

Creating Booklists

Creating booklists in the App is a simple process. Once created the booklists can be published or unpublished. Unpublished booklists will not appear in the App.

1. In the CMS click on the **Bookstore** on the side menu
2. In the Booklist screen click **Add** to create a new booklist

Click Bookstore

Click Add

The 'Manage Booklist' interface shows a table with columns: S.No., Year, Name, Created On, Last Modified On, Publish, and Edit. The 'Publish' column contains buttons: Add, Publish, Unpublish, and Delete. The 'Add' button is highlighted with a blue arrow.

3. Enter the details for the Booklist and click Select Books
