Unique Pay - New Features

As part of **US** continued commitment to never-ending improvement we are delighted to announce some new features in our UPay system.

Recording Payments received outside the App

There will always be situations where a school needs to record payments from parents which are received “outside” the App. These can be:

1. **Cash Payment** – parents sending in cash: the feature allows you to record multiple cash payments of different amounts
2. **Cheque** - parents sending in a Cheque
3. **EFT** - parents making payments via Electronic Funds Transfer
4. **SEPA DD** - parents making payments via Direct Debit

From time-to-time schools need a level of flexibility with a fee charge to reflect a discount being given to a parent and/or a write-off of a balance outstanding.

We have enabled a feature to record these adjustments. This removes the need to set up a separate payment for a particular parent on an item and allows for easier management of the payments.

The accounts staff can now generate a report to senior management showing the amount of discount given and the level of write-offs in a particular year. This information assists in a more informed cash management approach.

5. **Discount** – in some instances a school will charge a reduced amount on a fee to a particular parent to reflect their financial circumstances.

6. **Write-off** – schools want to write off the balance outstanding by a parent on a fee.

Step-by-step Instructions

You can either mark a payment as full cash paid, or partial payment.

Simply follow the same procedure as you would to mark as Cash payment.

To find the payment and student you need to mark as paid go to:

Dashboard >>

Shop >>

Manage School Items V5

Once you find the student, tap on UNPAID to see a window pop-up with the options.

You will be required to enter all the details in the pop-up window.

Partial Payment

To add a partial payment, simply tap on Payment Type to select the option.

Once you mark the payment as Partial Paid, the parent will only be able to pay the remainder in Cash. Once they do so, you can follow the same steps to show remainder as received.

You will also be able to see all the payments logged in for that fee.
